PROFESSIONAL SUMMARY

Passionate and detail-oriented Full-Stack Software Engineer with hands-on experience designing, developing, and deploying modern web applications using React, Next.js, TypeScript, Node.js, Express.js, Prisma ORM, and PostgreSQL.

I enjoy transforming ideas into production-ready software by combining clean architecture, scalable backend systems, responsive frontend interfaces, and thoughtful user experiences — building complete web applications from concept to deployment.

I believe software engineering is more than writing code — it requires problem-solving, collaboration, continuous learning, and attention to detail. Currently seeking opportunities to contribute to innovative engineering teams and build software that solves meaningful real-world problems.

PROFESSIONAL EXPERIENCE

Freelance Web Developer

2025 — Present

Designed and developed websites tailored to client requirements, with a strong focus on usability, responsiveness, and performance.

- ▶ Built responsive websites for clients, converting UI designs into functional web applications
- ▶ Developed reusable and maintainable frontend components
- ▶ Optimized websites for desktop and mobile devices
- ▶ Collaborated directly with clients to understand business requirements and delivered within agreed timelines

SOFTWARE ENGINEERING TRAINING

Web 2 Advanced Software Engineering Program

2023 — 2026

Blockfuse Labs

- ▶ Completed intensive hands-on training covering full-stack engineering: frontend, backend, authentication systems, databases, API development, deployment, and best practices

React.js Next.js Node.js Express.js Prisma ORM PostgreSQL JWT Auth REST APIs

PROJECTS

NovaFit — Fashion E-Commerce Platform

A modern fashion and streetwear e-commerce platform designed for a smooth online shopping experience.

- ▶ Designed and developed the frontend with reusable React components
- ▶ Structured a scalable project architecture and integrated Prisma ORM
- ▶ Implemented responsive layouts, optimized for performance across devices

Next.js TypeScript Prisma ORM

GitHub: github.com/WallexCoder/novafit Live: novafit-indol.vercel.app

TECHNICAL SKILLS

Frontend

HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), TypeScript, React.js, Next.js, Responsive Web Design

Backend

Node.js, Express.js, REST APIs, JWT Authentication, Bcrypt, Prisma ORM

Database

PostgreSQL

Tools & Workflow

Git, GitHub, VS Code, Postman, Vercel, npm

Core Engineering Skills

API Integration, Authentication & Authorization, Database Design, Debugging, Clean Code Principles, Component-Based Architecture, Testing Fundamentals

AREAS OF INTEREST

- Full-Stack Software Engineering
- Frontend Architecture
- Backend Development
- Web Performance
- AI Automation
- Cloud Technologies

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Communication
- Continuous Learning
- Adaptability
- Attention to Detail

LANGUAGES

English

AVAILABILITY

- Full-Time Roles
- Graduate Programs
- Remote / Hybrid
- Freelance Projects
